

About the company

Description of the company

Gebr. FALLER GmbH is BIG ON A SMALL scale. For over 75 years, versatile products for model making, in particular building kits and suitable accessories for model landscaping, have been manufactured. In addition to its own products, FALLER currently sells 37 other brands from renowned manufacturers. The main sales area is Germany and other European countries. The traditional company was founded in 1946 and is based in the southern Black Forest, near the town of Furtwangen. This is where the products are conceived, developed, manufactured and distributed - all over the world

Sustainability profile

- We strive to act sustainably.
- We take responsibility for our employees, the employees in the supply chain, the climate and the environment.
- In order to live up to this claim, we are continuously working on the further development and improvement of our sustainability activities. Also in cooperation with external service providers, such as the Fraunhofer Institute.
- In order to fulfill our social responsibility at our own location, we have a works council, for example.
- In the supply chain, we rely on a close and strategic partnership with our suppliers, among other things.
- The ecological commitment is characterized, among other things, by the fact that the climate and environmental balance is to be improved, in cooperation with the FHI & HdM in Stuttgart, the main drivers of the ecological footprint were identified; plastic for the articles as well as the packaging. A development path is being designed for this. For the switch to more sustainability in plastic and packaging.
- We also have a general focus on the durability and recyclability of our products and packaging.
- We have a high level of vertical integration at our company location
- The first steps were taken in the area of life cycle assessment.
